- ✓ Fair, honest and solid partner

Talent Management by tts

Consultancy, implementation and application management from a single source

Talent management is our core business. Alongside functional talent management consultancy we provide the technical competence you need for a successful implementation – often from the same person. This means that from the very outset the strategic, conceptual and technical aspects of talent management work together, avoiding friction losses.

SAP and SuccessFactors

We are a consulting and implementation partner of SAP with a particular focus on talent management solutions.

More than 500 satisfied customers

National and multinational companies in Europe, Asia and America are happy to testify to the strengths of our products and services. The following selection of customer quotes is representative of more than 500 satisfied customers – and is our best recommendation.

IN THE WORDS OF OUR CUSTOMERS

"Despite the tight schedule the talent management experts from **tts** contributed significantly to ensuring that our SAP application met all requirements just-in-time." **MAN**

"For me, the alpha and omega of training in virtual classrooms is the strengths and capability of the trainer. They count for even more than with presence training. **tts** brings along the right expertise and strengths to lead such training to a successful conclusion." **Bosch Rexroth**

IN THE WORDS OF OUR CUSTOMERS

"It is not just the implementation but also the preparation, planning and finally supervision that are critically important to successful training."

Merck

"Many thanks to **tts** for the great teamwork. You really are a Knowledge Transfer Company!"

E.ON

"Ultimately, the implementation of the blended learning concept not only led to a successful system migration but also established a new, dynamic educational culture within the organization." **Vontobel**

"With **tt performance suite** we are not only making the work of our authors easier but also making it easier to access content. The combination of our stringent quality processes and the intuitive-to-operate software from **tts** makes sustainable training possible at a high level." **Endress+Hauser**
